## Care Management

Care management is an important service that includes coordinating care and services that will help you deliver on the goals you identified in your Care Plan. Our Case Manager is a qualified Nurse to ensure that clinical care is best managed to meet each client's individual care needs.

Hours of service provided below are estimates only, and relate to identifying and addressing risks to the Home Care consumer's safety, reviewing the Home Care Agreement and Care Plan, coordination and scheduling of services, budget management and creating the task schedules.

Charges outlined below fully cover all the case management tasks described above for those consumers whose packages we fully manage, and include the first assessment and any subsequent reassessments for all clients. Our Case Manager will visit you at home for your reassessment if your care needs change (i.e. after a hospital admission).

### Approach to care management

Cobram Regional Care has a philosophy of 'person-centred' care. This means that you or your loved one is at the centre of all that we do.

The support we provide is designed around you or your loved one rather than you having to fit into our service.
